"Thank you so much for your motivational emails. I have been studying hard and sometimes I thought about quitting because I felt as though this was all too much and I was over my head, but then I would receive another email from you which kept me going. Well, after all the hard work, I did the exam 3 weeks ago and have passed with credit. Not bad for a 53 year old woman. I am absolutely over the moon!" **Korinne Dodd, NSW**

"I do believe you are a mind reader!! I recently was offered a promotion at work which I know I will do very well at. I was in two minds leaning more towards calling the boss and saying I won't accept new position, reason being its outside my comfort zone. Thank you shelley for putting things in perspective, after reading, Lets get real I phoned my boss and said I would be happy to accept the role and I am looking forward to the challenge." **Norma Haije**

"Your daily inspiration and motivational statements are really needed. Your email today arrived in time to lift my spirits and reinforce my ability to remain positive after a difficult weekend. I originally subscribed to you to provide inspiration within the work force for myself and to pass on to my staff, but now I find them to be comforting whilst I handle my grief and pain in this situation and reminding me to take care of myself too. So this email is to thank you, and let you know that I find your messages timely and much needed!"

"I heard you speaking on the radio one day and was so taken with your enthusiasm and down to earth way about you that I came home and immediately logged on to your site - I have been receiving your motivational notes for the last few weeks - they really inspire and add to my day - I am also passing these onto my teenage children to inspire them as they move forward in their lives. Thank you." **Glenda Ladbrook, NSW**

"I just wanted to take time out to say how much your determination, perseverance, and work ethic has inspired me and hundreds like me. Because of your encouragement I have started two successful businesses at age 26; one, network marketing and the other coaching. You have mentored me from a far and I appreciate you so much. I owe you so much for helping me to live out my dreams. Thank you." **Elisha Burke-Brown, Philadelphia , USA.**
